**PETITION UNDER 37 CFR 1.182**  
**(RESPONSE TO NOTIFICATION OF DEFECTIVE RESPONSE)**

Assistant Commissioner for Patents,  
Washington, DC 20231

Sir:

A Notification of Defective Response was mailed by the PTO on April 4, 2003. The Notification indicates that the Declaration is not in compliance with the rules because the given name of the third inventor listed in the Declaration is different from the name listed on the published international application, and no form PCT/IB/306 has been issued to indicate a change of the name in the international application.

In fact, the given name of the third inventor is correct as listed in the executed Declaration filed on February 13, 2003. It is the name listed on the PCT publication that is incorrect. More specifically, the name "Ryo TSUNEMI" listed on the PCT publication is incorrect; the correct name is --Akira TSUNEMI--.

The error occurred due to an incorrect translation of the Japanese name, and the error was not discovered until after the PCT application was filed. It was not recognized that a Request for a Change of the Name should have been filed during pendency of the international application. The error was made without deceptive intent.

As evidence that the correct name of the inventor is Akira TSUNEMI and not Ryo TSUNEMI, a statement by the inventor is submitted herewith.

Accordingly, it is respectfully requested that the executed Declaration filed February 13, 2003 containing the name Akira TSUNEMI for the third inventor be accepted.

A petition fee of \$130.00 is enclosed.

Respectfully submitted,

Takehiko KITAMORI et al.
